

CMS Supports Inaugural TradeTech Summit in Singapore

MEDIA RELEASE

23 November 2005- Capital Market Solutions (CMS), a leading provider of software and services to institutional investment managers, private wealth managers and stockbrokers, is confirmed as an exhibitor at the inaugural TradeTech Asia 2005. The summit is being held at the Grand Copthorne Waterfront Hotel, Singapore from the 29th to 30th November.

TradeTech Asia 2005 is the inaugural summit bringing together all the major players on the buy side and the sell side to address the most burning challenges in institutional equity trading in the Asia-Pacific Region. Endorsed by the FIX Committee and sponsored by the major investment banks, the conference will bring together an audience of 250 senior professionals from the biggest fund management companies, the major investment banks/brokers and exchanges to debate how to move equity trading forward.

CMS will be sharing with summit attendees strategies and solutions to address some of the major challenges facing institutional equities traders including; algorithmic trading, direct market access, portfolio modeling, order management and pre and post trade compliance. CMS will also be conducting product demonstrations of its leading buy side and sell side solutions such as; LongView Trading and NOVA.

The CEO of CMS, Ralph Horne stated, "We are excited to be participating in and supporting the inaugural launch of TradeTech Asia 2005. This is an important gathering of industry leaders and a great opportunity to work with the institutional trading community and to showcase our solutions. The timing of the event is ideal and coincides with the recent launch of our NOVA product and the opening of our new branch office in Singapore."
